

## Key Selection Attributes

- Unique profile provides a refined alternative to a traditional blunt 90-degree vertical trims
- Two profiles available:
  - **AXIOM-Knife Edge** for traditional acoustical lay-in and tegular panels, as well as drywall
  - **AXIOM-Knife Edge for Vector** is specifically made to work with the unique Vector edge
- Extruded aluminum trim provides more crisp edge detailing compared to conventional roll-formed steel systems
- Compatible with Armstrong exposed suspension systems and Drywall Grid Systems
- Colors coordinate with Armstrong ceiling and grid systems; custom colors available
- Standard 90° factory bonded corners
- Factory corners available in configurations between 60° and 135° upon request

### Factory Bonded corners

AXIOM-Knife Edge  
Factory Bonded Inside Corner

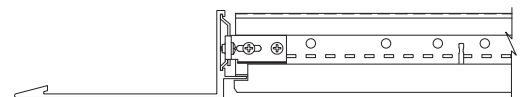

AXIOM-Knife Edge  
Factory Bonded Outside Corner

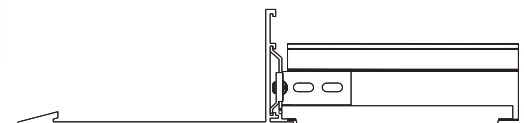

The narrow Knife Edge profile accentuates the weightless appearance of floating ceiling clouds.

AXIOM-Knife Edge profile is made from extruded aluminum and offers precise detailing and quality.
